PERSONAL DETAILS

- **Date of Birth:** 18/07/2001
- **Address:** Pune, India

TASLIM BADE

FRONTEND DEVELOPER

PROFILE SUMMARY

- **Result-driven Frontend Developer** with expertise in building responsive, user-centric web applications using **HTML, CSS, JavaScript, Bootstrap, and React**, along with solid experience in **SQL** and **KPI reporting**.
- **Proficient in SQL** for data extraction, validation, and integration into frontend applications, enabling dynamic and data-driven solutions.
- Skilled in **Excel (Advanced)** for creating **KPI dashboards, performance reports, and data visualization**, driving insights for business decision-making.
- Hands-on experience in **UI/UX design, cross-browser compatibility, and optimizing web application performance** to deliver seamless digital experiences.
- Adept at **developing interactive dashboards and reporting tools**, combining frontend frameworks with data sources to improve operational efficiency.
- Strong foundation in **problem-solving, debugging, and code optimization**, ensuring maintainable and scalable frontend solutions.
- Collaborative team player with proven ability to **work with designers, backend developers, and business stakeholders** to deliver high-quality, KPI-driven solutions.

WORK EXPERIENCE

Kohinoor A Krishnakumar Goyal Enterprises – Pune, India | Trainee Engineer | Present

- Managed KPI tracking and reporting workflows, ensuring accurate measurement of business metrics and performance indicators.
- Extracted, validated, and analyzed data from ERP modules to support business reporting and performance monitoring.
- Created and maintained **KPI templates and reports** in **Google Sheets and Excel**, improving reporting consistency and efficiency.
- Monitored key performance metrics to identify trends and support **data-driven decision-making**.
- Delivered customized client reports, including dynamic monthly performance dashboards with interactive tables and charts using Excel and Google Sheets.

PERSONAL PROJECTS

Envision Computer Training Institute– Pune, India | Student | March 2024

Personal Portfolio Website

- Developed a **responsive personal portfolio website** using **HTML, CSS, Bootstrap, and JavaScript**.
- Designed a **clean and modern UI** with Bootstrap components and custom CSS, ensuring a mobile-friendly and professional layout.
- Implemented interactive features such as **navigation toggles and form validation** using JavaScript.
- Showcased projects, skills, and contact information in an **organized layout**, gaining hands-on experience in front-end development and real-world UI/UX practices.

Responsive Website - Home Interior Design Website (Java & MySQL)

- Developed a **Java-based web application** for home interior design, allowing users to explore themes, customize layouts, and visualize designs in virtual rooms.
- Integrated **MySQL database** for efficient data management, ensuring secure storage of user profiles, design preferences, and pricing details.
- Implemented **user authentication, dynamic pricing, and interactive interior design features**, providing a seamless experience across frontend and backend components.
- Built a cohesive application combining **frontend technologies with Java backend**, enhancing usability and responsiveness for end-users.
- Gained hands-on experience in **full-stack development, database integration, and interactive web application design**.
